OR FELIX LA

It has been recently estimated that the total vement of freight on all the railroads in to inited States during the past year equalecsverage charge of transportation was one and wo thirds cents per mile The aggregate value more than \$22 600 000 000 But these figures immense as they are, represent only a small pa-tion of the results of railroads in developing the country The coming up of the country is one of the greatest consequences of railroad enterprise. The magnitude of this is beyond calculation. The building of the Union Pacific sgun at Omaha while no ratiroad crossed cade have been built to connect with it on the Missionri river The development of the state of lows, with its population of almost 2 000,000, has been the result of building the Union Particles. Rebrasks, with more than half a us lion of people, Colorado, with a quarter of a million, and largely the result of that road other states and cities nave been riched in population and money to an incal derree by the same enterprise milding of one railroad leads to the buildens paral[eled by a new railroad is far west as the Rocky mountains, and if the

mines in Idaho prove to be rich enough that their way into colleges for the opposite ben. servitory will be penetrated by a narrow gan be system singler to that in Colorado. It is 4: A or Welleeley There is no reason why young major that the mines at Butte have already ladies should not have the same freedom and ratiroad running north from Ogues, mainess, the profits of which have more equipping the road. The rates of freight or make it a means o their maintenance for their that gets have been extertionate it is truewith the people living in Butte whether the ecompanies or the eastern and foreign stock severely upon their tempers and then upon holders of the Union Pacific railroad company their health. A very perfound woman many received the profits of the mines—and these-fore lights is a somewhat exceptional case, an eres and prosperous mining camp with a good deal of a railroad in a abort Morthern Pacific in Montana and Washington as there are already in Dakota and Minnesota and so wherever there is good land or m was reflecade will extend until the whole course atother so grand a ratificad opening as we buve just witnessed and welcomed, but other important rouds will be built. When the City of Kenion is reached by the railroads which pur can are building, there will don't less we hope that General Grant will be one of the party to saget in the distribution of the honors of fue enterprise, as he did near Missoura the other dag. There were brave men before Agaand so there will be other railroad. already a larger population than Englan. >r Germany, we are stell young America wal A FINE EXAMPLE. He. Gladstone is an automobing man. He but whose names trave been placed on the rolls

embried parliament fity-one years ago at te through the chicarery of persion agents. These age of twenty-three, and has been in public life voltures proy upon everybody and through hee had during all this time some hiderary work in present shadowy olum against the giver ament in hand, and written books and pamphlets in and employ them to collect it. Even now obtained and coolestastical subjects which have country postmasters are being flooded with the attracted great attention. Of late he has seen circulars of a Weshington agent offering to col ng himself from the labors of a very acnoying session of parliament by transfacing late readjustmen of postmasters calaries. No-Cowper's well-known bymn, "Hark My Son" bod hat the claim agents has so interpreted Cowper's well-known hymn, "Elark My Sen" bodg, but the claim agreement into Italian. In a short preface he says that in the law as to show, any back pay due, and the the trainer. In a coors price of the word is also as an object grown in the season of the word is also as the coorse of the word is also as the but the agents go on, and no doubt headreds howen. Beligious exercises were sure; I ed of postmasters will send money to the shark to with in the Latin communion with the Latin prosecute the claims hymns, and bymns in the vernscular beth a see and in Germany may be considered as a prod

met of the change which restored the use o .bo

some to move americal in this way sent's specific is the greatest boon on carth, and is worth move than its weight in gold. It anti-dots attal Mirrou tall Palson, tones up the eyabeth, and brings the sufferer back to health and happiness. Every person who has ever been earbated should by all means take a therough course of this remedy.

JEFFERSONVILLE, Twiggs Co., Georgia.
Five y are seo I found us my plantation a solored man who was badly discussed. He stated that five years before he had contracted a violent case, of blood Poisson, and had been treated by many physicians, all failing to care him. I treated him with Switz's Specific, and he as short time he was sound and well, and has not had a symptom of Lee discusse since.

D. M. HUGHES.
